Social Story: Vaccination

Mummy/Daddy/My caregiver and I are at the vaccination centre.

There are many people and noises around me. Mummy/Daddy/My caregiver is with me. I will be okay.

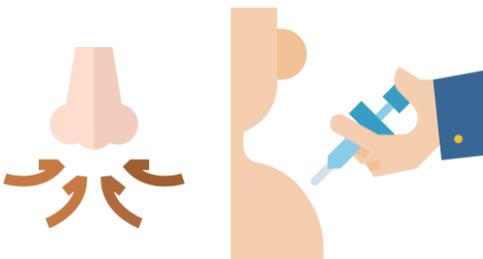

The staff asks questions about me. Mummy/Daddy/My caregiver can help me to answer.

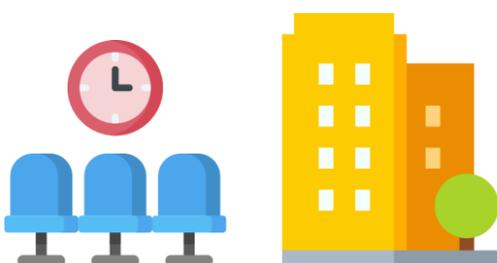

I have to wait for my turn. I can sit nicely with Mummy/Daddy/ my caregiver.

It is my turn. I will go in with Mummy/Daddy/ my caregiver. The nurse wipes something cold on my arm. It is ok, I can sit nicely.

I may feel scared. I can stay still, breathe in and breathe out. I can close my eyes. Soon it will be over!

I will sit and wait for 30 minutes. When the nurse says I'm safe, I can go home!

Social Story: Post Vaccination

After my jab, I may feel unwell...

Pain in my arm

Have fever

Very tired

Pain in my head

I can rest at home

I can tell Mummy/Daddy/
my caregiver

I will feel better after a while. I am protected!
